## Our Process:

Participants complete 1 hour of pre-work in preparation for the weekly 3-hour training sessions. These sessions are highly interactive and reinforced through immediate application within your current life and ministry context.

Throughout the 10 weeks, participants engage in intentional, cross-cultural ministry in their current contexts, receiving training and intentional coaching from experienced, cross-cultural church planters.

Due to virtual delivery, cost is minimal and calculated at half of your country's average daily wage.
