Our Process:

Invest one day a week in GDS Lite, between weekly team meetings, mentoring, and 2 hours of pre-work and post-work for each weekly 3-hour training session. These sessions are highly interactive and reinforced through immediate application within your current life and ministry context.

Throughout the 10 weeks, you will engage in intentional, cross-cultural ministry, receiving training and intentional coaching from experienced, cross-cultural church planters.

Due to virtual delivery, cost is minimal and calculated at half of your country's average daily wage.
